LEGAL NOTICE

Application of Cross Texas Transmission, LLC to Amend a Certificate of Convenience and Necessity for a Proposed Transmission Line in Donley and Gray Counties, Texas

PUBLIC UTILITY COMMISSION OF TEXAS (PUC)
DOCKET NO. 43731

This notice is provided to notify you of the intent of Cross Texas Transmission, LLC (CTT) to construct a new single-circuit 345 kilovolt (kV) transmission line. The transmission line will interconnect a new substation to be built by Salt Fork Wind, LLC approximately one mile south of Interstate Highway 40 along County Road 9 in Donley County and CTT’s existing Gray Substation approximately 2 miles west-southwest of Lefors in Gray County. The proposed transmission line will be approximately 24 miles long. The estimated cost of this project is \$51,003,000.

Persons with questions about the transmission line may contact B. Cameron Fredkin at (877) 214-8288. A detailed routing map may be reviewed at Lefors City Hall, 103 N. Court Street, Lefors, Texas 79054, at Cross Texas Transmission, LLC, 3469 S. Loop 335 East, Amarillo, Texas 79118, or at www.crosstexas.com.

All routes and route segments included in this notice are available for selection and approval by the Public Utility Commission of Texas.

Persons who are affected by the proposed transmission line and wish to intervene in the docket or comment on the applicant’s application should mail the original and 10 copies of their requests to intervene or their comments to:

Public Utility Commission of Texas
Central Records
Attn: Filing Clerk
1701 N. Congress Avenue

P. O. Box 13326,
Austin, Texas 78711-3326

Persons who wish to intervene in the docket must also mail a copy of their request for intervention to all parties in the docket and all persons that have pending motions to intervene, at or before the time the request for intervention is mailed to the PUC. The only way to fully participate in the PUC’s decision on where to locate the transmission line is to intervene in the docket. It is important for an affected person to intervene because the utility is not obligated to keep affected persons informed of the PUC’s proceedings and cannot predict which route may or may not be approved by the PUC.

The deadline for intervention in the docket is January 2, 2015, and the PUC should receive a letter from anyone requesting intervention by that date.

The PUC has a brochure titled “Landowners and Transmission Line Cases at the PUC.” Copies of the brochure are available from B. Cameron Fredkin at Cross Texas Transmission, LLC, 3469 S. Loop 335 East, Amarillo, TX 79118 or may be downloaded from the PUC’s website at www.puc.state.tx.us. To obtain additional information about this docket, you may contact the PUC’s Customer Assistance Hotline at (512) 936-7120 or (888) 782-8477. Hearing-and speech-impaired individuals with text telephones (TTY) may contact the PUC’s Customer Assistance Hotline at (512) 936-7136 or toll free at (800) 735-2989. In addition to the intervention deadline, other important deadlines may already exist that affect your participation in this docket. You should review the orders and other filings already made in the docket.

Salt Fork to Gray 345 kV
Transmission Line Project
Route Description

The total length of the proposed route is approximately 24 miles. The route originates at the southern boundary of the existing Gray Substation located approximately 1.3 miles east of County Road (CR) 14 in the southeastern portion of Section 4 in Gray County. The route exits the substation to the south, enters the northeastern portion of Section 5, and angles to the west. The route then extends west paralleling the south side of the northern boundary of Section 5 for approximately 0.7 miles where it enters the northeastern corner of Section 26 and angles to the south. The route then extends south, paralleling the west side of the eastern boundary of Section 26 for approximately 0.7 miles. The route then angles to the southwest and extends across rangeland for approximately 0.25 miles where it crosses two existing transmission lines. It continues to the southwest for approximately 275 feet, where it reaches the southern boundary of Section 26 and angles to the west.

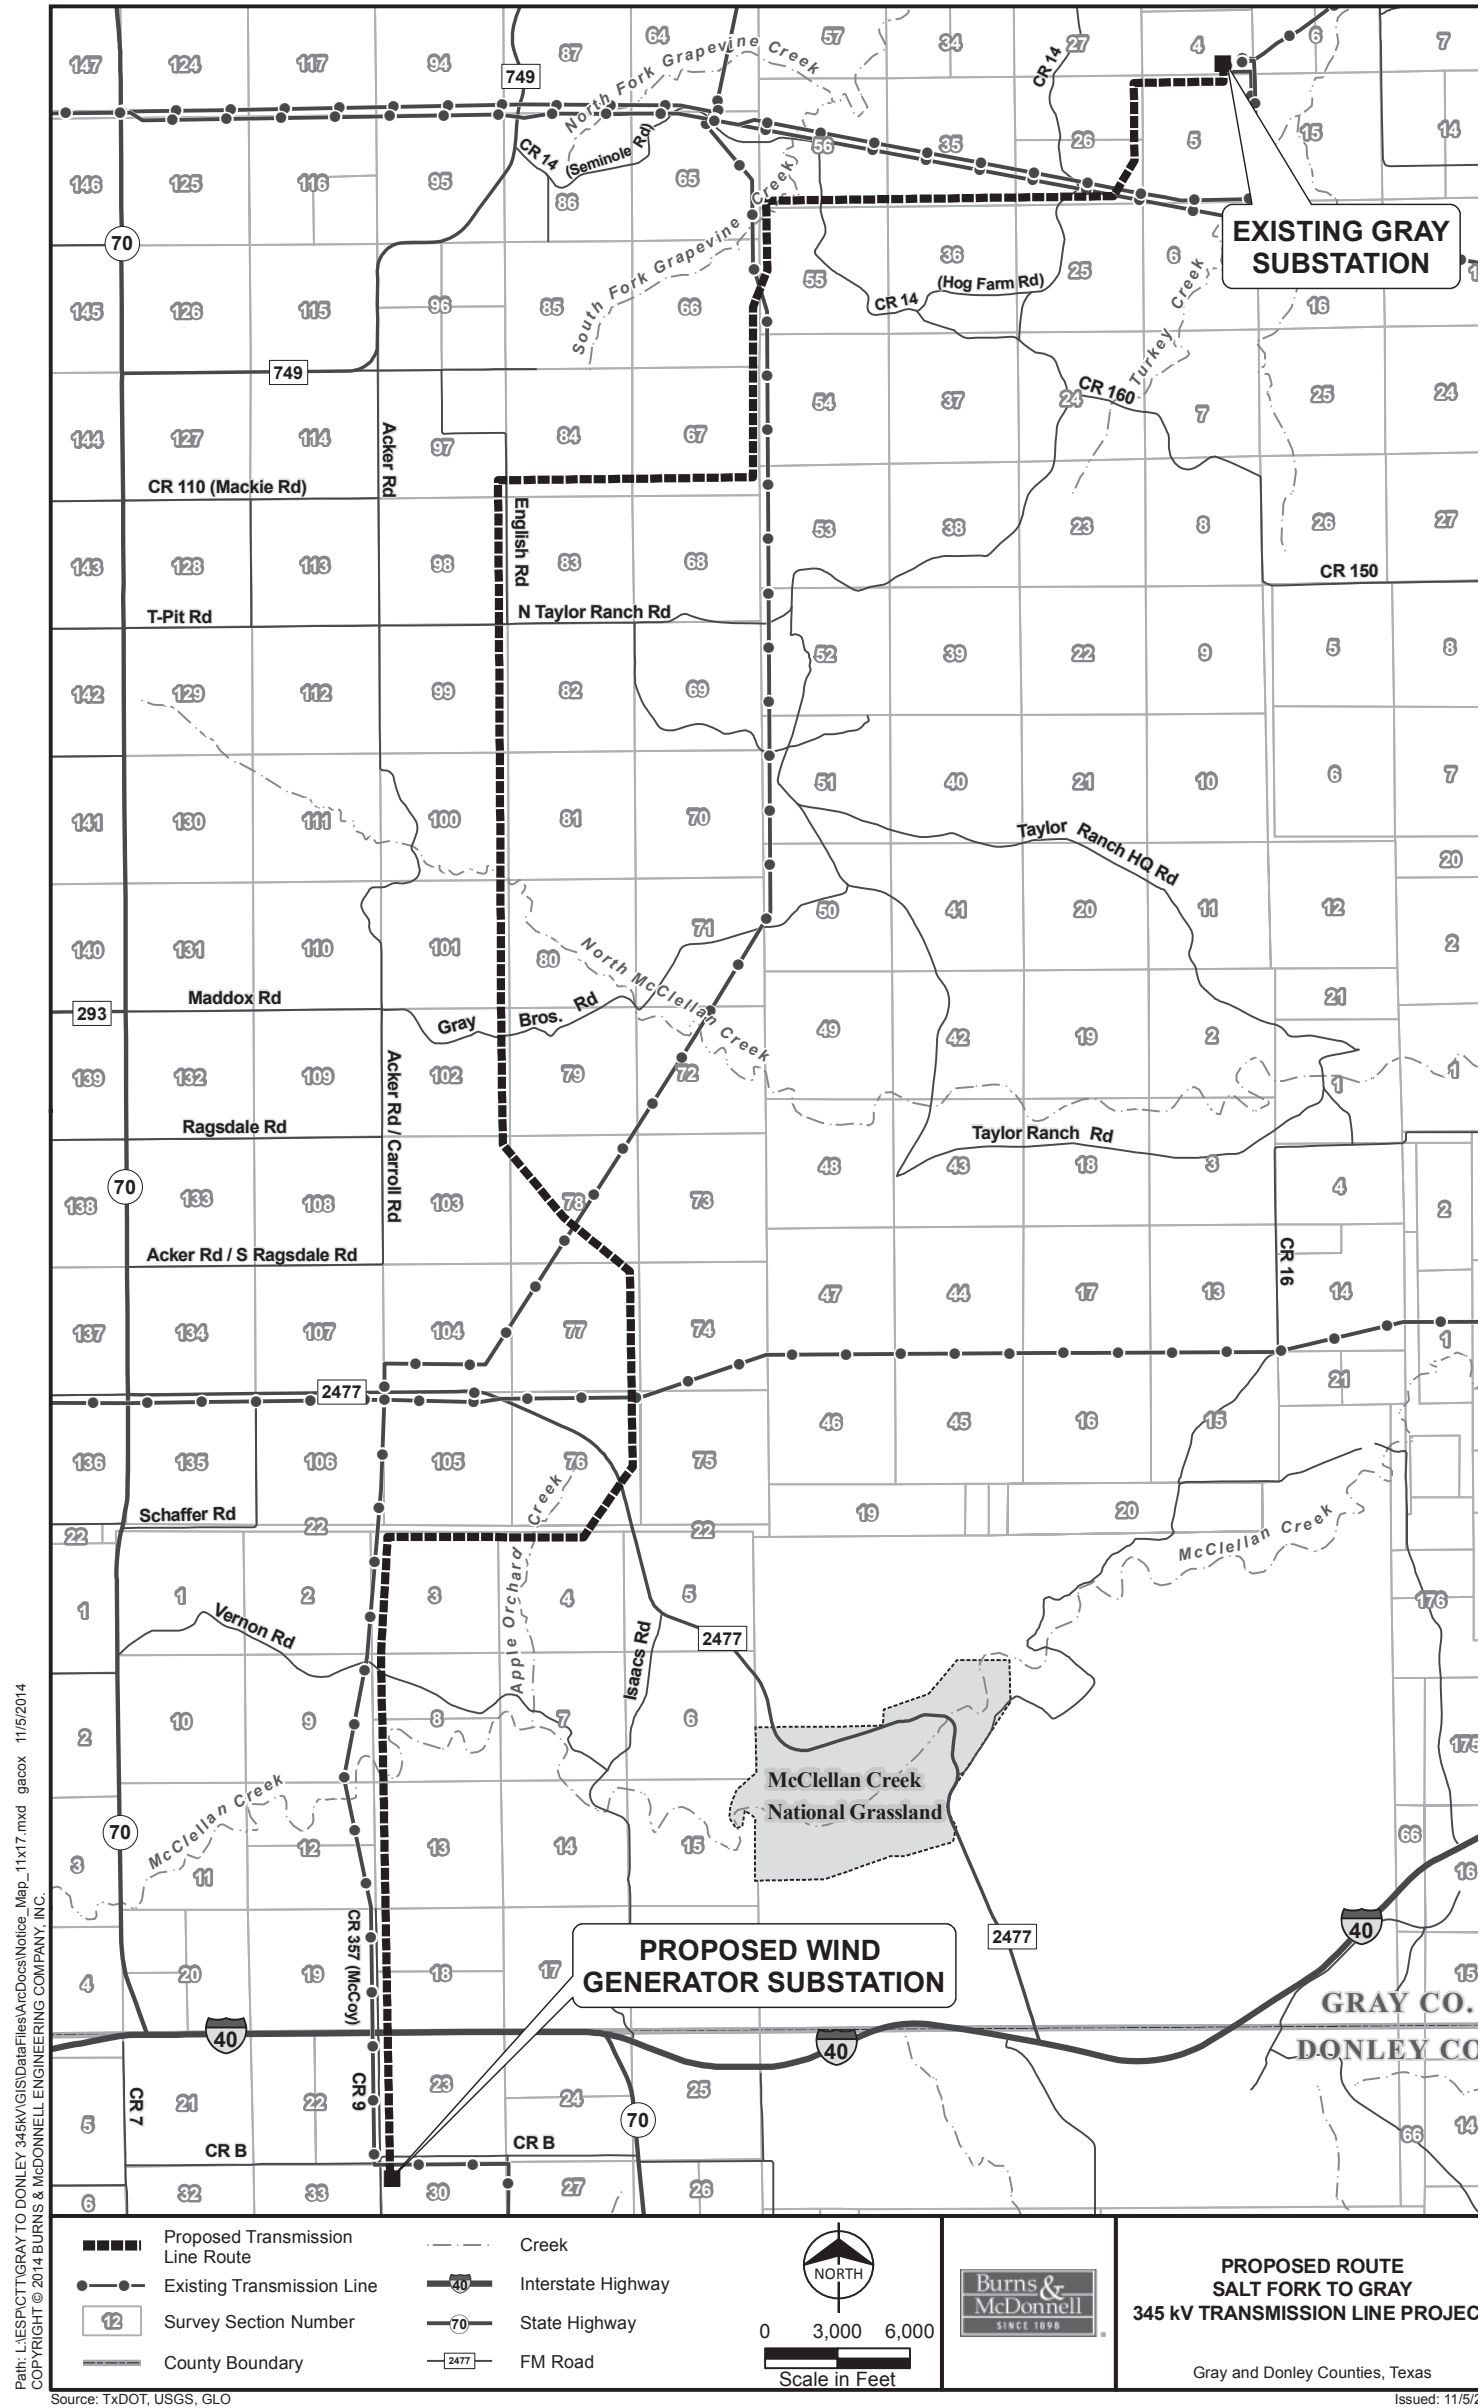

The route extends west along the north side of the southern boundary of Section 26 for approximately 0.5 miles, crosses CR 14, and parallels the southern boundary of Section 26 approximately 0.4 miles where it enters the southeastern corner of Section 35. The route parallels the north side of the southern boundary of Section 35 to the west for approximately 1.0 miles, enters the southeastern corner of Section 56, and parallels the north side of the southern boundary of Section 56 for approximately 0.5 miles where it crosses CR 14. The route then continues to parallel the southern boundary of Section 56 approximately 0.3 miles where it crosses the South Fork of Grapevine Creek, and extends approximately 0.1 miles to the southwest corner of Section 56 on the east side of an existing transmission line.

The route then angles south, and begins paralleling the east side of the existing transmission line along the western boundary of Section 56 to the south and immediately enters the northwest corner of Section 55. It continues south approximately 0.1 miles and again crosses the South Fork of Grapevine Creek. The route then parallels the east side of the existing transmission line along the western boundary of Section 55 for approximately 0.5 miles to a point where it angles slightly southwest. It extends to the southwest approximately 0.2 miles as it enters the eastern boundary of Section 66 and crosses to the west side of the existing transmission line and angles to the south again. The route then extends approximately 0.5 miles south, paralleling the west side of the existing transmission line along the eastern boundary of Section 66 and enters the northeast corner of Section 67. It parallels the west side of the existing transmission line approximately 0.9 miles to a point approximately 0.1 miles north of the southern boundary of Section 67. It angles to the west and extends west for approximately 1.0 miles, enters Section 84, and extends approximately 1.0 miles where it crosses English Road and enters the southeastern corner of Section 97.

The route then angles south, and parallels the west side of English Road along the eastern boundary of Section 98 to the south approximately 0.1 miles and enters the northeastern corner of Section 98. It then parallels the west side of English Road along the eastern boundary of Section 98 to the south for approximately 1.0 miles where it crosses North Taylor Ranch Road. The route then extends south approximately 2.0 miles paralleling the west side of the eastern boundaries of Sections 99 and 100. The route crosses North McClellan Creek in the southeast corner of Section 100, enters the northeast corner of Section 101, and then parallels the west side of the eastern boundary of Section 101 for approximately 1.0 miles. The route enters the northeast corner of Section 102, and parallels the eastern boundary of Section 102 to the south for approximately 0.2 miles where it crosses Gray Brothers Road. The route then parallels the eastern boundary of Section 102 to the south approximately 0.8 miles and enters the northeast corner of Section 103.

The route then angles to the southeast, enters the northwest corner of Section 78 and extends approximately 0.7 miles across rangeland, angles slightly southeast, and extends approximately 0.1 miles where it crosses an existing transmission line. It extends approximately 0.5 miles to the southeast across rangeland, and enters the northeast corner of Section 77 where it angles south on the west side of the eastern boundary of Section 77. The route parallels the west side of the eastern boundary of Section 77 to the south approximately 1.0 miles, enters the northeast corner of Section 76 and then crosses an existing transmission line. It parallels the eastern boundary of Section 76 to the south approximately 0.5 miles, angles southwest, and extends across rangeland approximately 0.2 miles where it crosses Farm-to-Market (FM) 2477 at a point approximately 1.1 miles northwest of the FM 2477 and Isaacs Road intersection. The route continues southwest approximately 0.4 miles across rangeland, crosses the northern boundary of Section 22, extends 320 feet, and crosses into Section 4 approximately 0.4 miles east of Apple Orchard Creek. The route angles to the west and parallels the northern boundary of Section 4 to the west approximately 0.4 miles and crosses Apple Orchard Creek. It then parallels the northern boundary of Section 4 approximately 0.3 miles and enters the northeast corner of Section 3. The route continues to the west, paralleling the northern boundary of Section 3 approximately 0.9 miles, where reaches the east side of an existing transmission line and angles to the south-southwest.

The route then parallels the eastern side of an existing transmission line to the south-southwest approximately 1.0 miles, crosses into Section 8, and angles slightly south where it then parallels the western boundary of Section 8 approximately 0.1 miles and crosses Vernon Road. The route continues paralleling the western boundary of Section 8 to the south approximately 0.8 miles, crosses McClellan Creek, and parallels the western boundary of Section 8 to the south approximately 0.1 miles where it enters the northwest corner of Section 13. It then parallels the east side of the western boundary of Section 13 to the south approximately 1.0 miles, and enters the northwestern corner of Section 18. The route extends south, paralleling the east side of CR 357 (McCoy Road) along the western boundary of Section 18 approximately 1.0 miles. It then continues south, crossing the Gray/Donley county line and Interstate Highway (IH) 40 into the northwest corner of Section 23 in Donley County. The route then parallels the east side of CR 9 to the south along the western boundary of Section 23 for approximately 1.0 miles. The route extends south, crosses CR B, crosses an existing transmission line, and terminates at the proposed wind generator substation in the northwest corner of Section 30 in Donley County.
