Where Do Animals Go in Winter?

Winter can be a hard time for animals.
The temperature drops, ponds freeze and
snow covers the ground. There is very
little food to be found. What do they do?

What do
they do?

In

Out

**Read about what each
animal does in winter, then
fill in the crossword with
each animal's name:**

2. I have an underground home.
I store seeds and nuts for snacks,
but sleep during the coldest days.

3. I eat and eat in the fall. My new
layer of fat takes care of me
while I sleep the winter away
in a hollow tree or in a cave.

4. We buzz and work hard while
the flowers are in bloom to make
and store food. We nibble
and nap during the winter.

5. We gather in herds in the woods.
We stay busy in the winter, eating
bark and twigs. Males in our herds
lose their antlers at the end of winter,
but grow new ones in the spring.

When you are done, a word will show
below the arrow that means the deep
winter sleep of some animals
(and, I think, of some people, too!).

6. I live in the land
and carry my home
on my back. I
squeeze myself into
cracks in rocks or
into the earth. I pull
into my shell, seal the
opening and go to
sleep all winter.

9. A lot of us fly south.
Some of us will stay if
we can find enough
food to eat all winter.

11. I will use an old animal hole, stone
wall, fallen tree or rocky cave to crawl
into for my long, deep, winter sleep.

7. I use sticks, branches
and mud to build my home.
The entrance is in the water,
so I can go for a swim
even if the pond is covered
with ice.

8. I put on my white
coat when winter comes.
It is hard to see me
hopping in the snow as
I look for weeds, buds
or bark to eat.

10. I go to the bottom of the pond.
I dig deeply into the mud and do
not come out until the spring.
