...the long, cold winter months ahead.

Kids: color stuff in!

Have you ever watched squirrels in the fall gathering all the acorns they can find?

Whirls of Squirrels!

Invitations to a festival were sent on oak leaves to all squirrel family members:

- These squirrels build nests in branches and hollows. They do not store food, but bury it to find later.
- These are the noisiest squirrels. They like to live in forests. They are the smallest of the tree squirrels, but they are very fast.
- These squirrels sleep during the day. They move and eat at night. They climb to high spots in trees, then jump and glide!
- These members of the squirrel family – woodchucks, prairie dogs and marmots – all have burrows in the earth. They store food and hibernate in winter.
- These dig burrows. They have dark and light stripes on their faces. They carry food in cheek pouches to store it for the winter. They sleep, but they wake up to nibble food.

Hmmm...let's find out what you know about squirrels!

Read the clues to fill in this puzzle:

- may be as small as a mouse or as large as a _____
- fur _____ may be gray, golden brown, red, black or white
- four sharp front ones; can bite through the hardest nut shells
- used for steering, balance, shade and warmth
- use these to hold; bury food
- over one _____ types of squirrels
- squirrels _____: bark, squeal and chatter
- _____ themselves a lot
- find nuts with this keen sense
- ground squirrels have these in cheeks to carry food
- make these in tree hollows, on branches, in ground
- fruits, nuts, berries, seeds, insects, eggs are _____
