Technology is Cool!

Check out these new VR headsets. You can see the eyelenses inside. They let us see a made-up world in 3D. They make playing games even more fun! I'll be keeping an eye on this invention.

I'm crazy about technology. I admire the way people are always thinking up new ways to solve problems or to improve designs of things. It must be a cool job to build mechanical devices or electronic equipment that everyone can use. What would you like to see invented?

- Read the clues to fill in the crossword:**
1. programs allow these to store and process data
 2. smaller, mobile computers, usually with large touch screens
 3. small parts of a computer that process information
 4. to copy and transfer information such as an application or program from a source like the internet onto your computer
 5. programs that tell your computer the steps to do something
 6. computers read and understand special codes to track information
 7. machines that can do tasks like tighten screws or put caps on bottles
 8. 3D _____ read designs and make them into real objects you can use
 9. virtual reality or VR _____ show you what it's like to look into another world and perhaps play a game while wearing these special goggles
 10. smart _____ - a technology updated to include a tablet computer, a camera and more - small enough that you can carry them

11. a global positioning _____ (GPS) uses satellites to guide you

12. self-driving _____ make use of almost every piece of technology in this puzzle - may be the future of transportation

Have you ever seen a 3D printer? You can draw cool 3D designs, then use a 3D printer to make the design into a real item that you can use. I can hardly believe I made this toy.
