Flies, mosquitoes and beetles...

Newspaper Fun!
www.readingclubfun.com

...we could never name all of the insects.

Kids: color
stuff in!

Hey Peak!
Did you know that insects can found on
land almost everywhere in the world? Even
in the usually frozen Arctic and Antarctica
during their warmest
season? Look at all
of these ants in the
ground and inside of
this old tree trunk!

**Here are some fun clues about different insects. Read the
clues to fill in the puzzle with the names of insects:**

1. beetles: colorful, spotted, liked by farmers for eating pests
2. more of these than any other insects (40%); eaten by some people
3. live on stored honey all winter and huddle into a ball for warmth; are found on every continent except Antarctica
4. really caterpillars; spin cocoons made of one long strand of silk
5. grown males chirp faster as it gets hotter; longer antennae than grasshoppers; out at dusk, they "sing" by rubbing wings together
6. four stages: egg, caterpillar, pupa (the resting stage while they are changing - cocoon) and adult; seen during the day; large wings
7. eggs to adults in 5 days; wings beat 300-600 times per second; hear "buzzing" as they get close to bite us; carry diseases
8. come out during the day; "sing" by rubbing their long hind legs against their wings; have "ears" on their "stomach" areas to hear
9. live near water; large eyes on head view a wide area; double-winged; can move up, down, hover like helicopter
10. flat, brown, oval bodies; like warmth; out at night, light will scare them

Insect Checklist!
Does it have (or is it):
☐ 3 main **body** parts?
☐ six jointed **legs**?
☐ two **antennae**?
☐ an **exoskeleton**?
☐ **cold-blooded**?
**If it has all 5 items
- it's an insect!**

Insects Bugging You?
