...colors to try to create new colors!

Kids: color stuff in!

When I went to the circus, I noticed that the main acts were highlighted with colored lights. The lighting crew used spotlights and color to attract the audience's attention, drawing our eyes to where the action was. By doing this they also drew our attention *away* from workers in the shadows who were setting up props and doing other jobs. We all focused on what *they* wanted us to see.

Our days are filled with color. We think about and use different shades of colors for many things. How many colors can you name?

Ladybugs can be yellow, orange or red with black spots!

codes
teams
decoration
countries

camouflage
optical illusions
temperatures
feelings
painting

I'll be tickled pink if you color everything!

It's a bit of a red-letter day when you get to be in the spotlight!

My gardener has a true green thumb!

Colors in the Spotlight!

How Do We See Color?

When an object – in this case, an apple – is exposed to sunlight, it absorbs some parts (wavelengths) of the light, *but not all*.

Some of the wavelengths of the light get reflected. When we look at the apple, this reflected light strikes millions of special cells (cones) in our eyes. The information from the cones is sent to our brains, which tell us that the apple is a lovely *red*!

Read the clues to fill in the "colorful" crossword:

1. players wear the colors of their _____
2. red roses = love, expressing our _____
3. to make things look nice: materials for clothes or home; jewelry
4. on maps: yellow = land, blue = water
5. to trick the eye, in printing
6. flower bed, fruit bowl, cosmetics
7. red = hot, blue = cool
8. to make blend into the surroundings (soldiers in jungle)
9. red, white and blue, for flags or emblems
10. an artistic work hung on the wall
11. flashing yellow arrow on the road, pointing the way
12. white flag = a wish to surrender

I go to a white elephant sale once in a blue moon.
