PUZZLE SOLUTION

LEGAL NOTICE

INVITATION FOR BIDS

City of Clarendon, Texas, will receive bids for construction of street paving improvements until 2:00 P.M. on the 10th day of May, 2022, at Clarendon City Hall, 313 S. Sully Street (P.O. Box 1089), Clarendon, TX 79226, at which time and place all bids received will be publicly opened and read aloud. Bids are invited for the construction of the following:
Concrete Paving
555.6 SY
Asphalt Paving
886.9 SY
Contract documents, including plans and specifications, are available at the office of OJD Engineering, LLC, 2420 Lakeview Drive, Amarillo, Texas, 79109, Phone 806-352-7117, FAX 806-352-7188. Copies may be purchased at a cost of \$100 per set. This fee is not refundable. Questions concerning this project should be addressed to Che Shadle, P.E., OJD Engineering, LLC, 2420 Lakeview Dr., Amarillo, Texas, 79109, Phone 806-352-7117, FAX 806-352-7188, or e-mail - che.shadle@ojdengineering.com.

City of Clarendon, Texas reserves the right to reject any or all bids or to waive any informalities in the bidding. Bids may be held by City of Clarendon for a period not to exceed thirty (30) days from the date of the bid opening for the purpose of reviewing the bids and investigating the bidders' qualifications prior to awarding of the contract.

EARLY NOTICE AND PUBLIC REVIEW

of a Proposed Activity in a 100-Year Floodplain April 14, 2022

To: All interested Agencies, Groups and Individuals

This is to give notice that the City of Clarendon has determined that the following proposed action under the Community Development Block Grant Program, Contract # CDM21-0168 is located in the 100-year floodplain and the City of Clarendon will be identifying and evaluating practicable alternatives to locating the action in the floodplain and the potential impacts on the floodplain and from the proposed action, as required by Executive Order 11988 and 11990, in accordance with HUD regulations at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management.

The City of Clarendon has existing City sidewalks that currently sit within a Special Flood Hazard Area Zone "A" and as determined on the FEMA Map Number 481584 0001 A, effective August 19th, 1986. The sidewalks are deteriorated, resulting in potential hazards. The City will replace the sidewalks to provide increased accessibility in the City of Clarendon. The total project will include the reconstruction of approximately 1,600 linear feet of concrete sidewalk, 1,700 linear feet of curb and gutter, 6 ADA ramps, 400 square yards of concrete steps, 24 pedestrian lights, and all associated appurtenances. The project is located in a Special Flood Hazard Area Zone A. The proposed locations for construction are in the Downtown District of the City of Clarendon from 1st Street to 4th Street along both sides. The new sidewalks will be in the same location as the existing sidewalks and the footprint will not change as a part of the proposed project. No work is proposed outside of where the existing sidewalks are located

in the City of Clarendon. The estimated total floodplain on the project site is .34 acres. As a result, this project is not anticipated to have an adverse effect to the natural and beneficial functions and values of the floodplain since the project activities will occur on previously disturbed soil. The City of Clarendon has received a grant from the Department of Housing and Urban Development through the CDBG program in the amount of \$350,000 for the proposed sidewalk improvements activity. The proposed project is in the City of Clarendon, in Donley County.

There are three primary purposes for this notice. First, people who may be affected by activities in floodplains and those who have an interest in the protection of the natural environment should be given an opportunity to express their concerns and provide information about these areas. Commenters are encouraged to offer alternative sites outside of the floodplain, alternative methods to serve the same project purpose, and methods to minimize and mitigate impacts. Second, an adequate public notice program can be an important public educational tool. The dissemination of information and request for public comment about floodplains can facilitate and enhance Federal efforts to reduce the risks and impacts associated with the occupancy and modification of these special areas. Third, as a matter of fairness, when the Federal government determines it will participate in actions taking place in floodplains, it must inform those who may be put at greater or continued risk.

Written comments must be received by the City of Clarendon at the following address on or before May 9th, 2022: City of Clarendon, P.O. Box 1089, Clarendon, Texas 79226 and 806-874-3438, Attention: Sandy Skelton, Mayor. A full description of the project may also be reviewed from 8:00-5:00 p.m. at Clarendon City Hall, 313 S. Sully St., Clarendon, Texas 79226.

Aviso Temprano y Revisión Pública de una Actividad Propuesta en una Llanura Aluvial de 100 Años
14 de Abril de 2022

Para: Todas las Agencias, Grupos y Individuos Interesados

Esto es para notificar que la Ciudad de Clarendon ha determinado que la siguiente acción propuesta bajo el Programa de Subsidios en Bloque para el Desarrollo Comunitario, Contrato # CDM21-0168 está ubicada en la llanura aluvial de 100 años y la Ciudad de Clarendon identificará y evaluará alternativas practicables a la ubicación de la acción en la llanura aluvial y los impactos potenciales en la llanura aluvial y de la acción propuesta, según lo exige la Orden Ejecutiva 11988 y 11990, de acuerdo con las reglamentaciones de HUD en 24 CFR 55.20 Subparte C Procedimientos para tomar determinaciones sobre la gestión de llanuras aluviales.

La ciudad de Clarendon tiene aceras existentes en la ciudad que actualmente se encuentran dentro de una zona "A" de área especial de riesgo de inundación y según se determina en el mapa número 481584 0001 A de FEMA, a partir del 19 de agosto de 1986. Las aceras están deterioradas, lo que genera peligros potenciales. La Ciudad reemplazará las aceras para brindar mayor accesibilidad en la Ciudad de Clarendon. El proyecto total incluirá la reconstrucción de aproximadamente 1,600 pies lineales de

acera de concreto, 1,700 pies lineales de bordillo y cuneta, 6 rampas ADA, 400 yardas cuadradas de escalones de concreto, 24 luces para peatones y todos los accesorios asociados. El proyecto está ubicado en una Zona A de Área Especial de Peligro de Inundación. Las ubicaciones propuestas para la construcción están en el Distrito del Centro de la Ciudad de Clarendon desde la Calle 1 hasta la Calle 4 a lo largo de ambos lados. Las nuevas aceras estarán en la misma ubicación que las aceras existentes y la huella no cambiará como parte del proyecto propuesto. No se propone ningún trabajo fuera de donde están ubicadas las aceras existentes en la Ciudad de Clarendon. La llanura aluvial total estimada en el sitio del proyecto es de 0,34 acres. Como resultado, no se prevé que este proyecto tenga un efecto adverso en las funciones y valores naturales y beneficiosos de la llanura aluvial, ya que las actividades del proyecto se llevarán a cabo en suelos previamente alterados. La Ciudad de Clarendon recibió una subvención del Departamento de Vivienda y Desarrollo Urbano a través del programa CDBG por un monto de \$350,000 para la actividad propuesta de mejoras en las aceras. El proyecto propuesto se encuentra en la ciudad de Clarendon, en el condado de Donley.

Hay tres propósitos principales para este aviso. En primer lugar, las personas que puedan verse afectadas por las actividades en las llanuras aluviales y aquellas que tengan interés en la protección del entorno natural deben tener la oportunidad de expresar sus preocupaciones y brindar información sobre estas áreas. Se alienta a los comentaristas a ofrecer sitios alternativos fuera de la llanura aluvial, métodos alternativos para cumplir el mismo propósito del proyecto y métodos para minimizar y mitigar los impactos. En segundo lugar, un programa de notificación pública adecuado puede ser una herramienta educativa pública importante. La difusión de información y la solicitud de comentarios públicos sobre las llanuras aluviales pueden facilitar y mejorar los esfuerzos federales para reducir los riesgos e impactos asociados con la ocupación y modificación de estas áreas especiales. En tercer lugar, como una cuestión de equidad, cuando el gobierno federal determina que participará en acciones que se lleven a cabo en las llanuras aluviales, debe informar a quienes puedan correr un riesgo mayor o continuo.

Los comentarios por escrito deben ser recibidos por la Ciudad de Clarendon en la siguiente dirección el 9 de mayo de 2022 o antes: Ciudad de Clarendon, P.O. Box 1089, Clarendon, Texas 79226 y 806-874-3438, Atención: Sandy Skelton, Alcaldesa. También se puede revisar una descripción completa del proyecto de 8:00 p.m. a 5:00 p.m. en el Ayuntamiento de Clarendon, 313 S. Sully St., Clarendon, Texas 79226.

Kids: color stuff in!

World of Oceans!

Would you like to live in a house under the ocean? It might be possible, but we don't know enough about the world's oceans yet to be able to build cities and live in the sea. Oceanographers, scientists who study the ocean, hope to unlock its many secrets. They study how the ocean affects our earth and our lives. They watch the effect our actions have on the oceans and ocean life.

You can be an "oceanographer" for a few minutes. Look at a flat map of the world or run your finger along a globe to see how the world's oceans join into one huge global or "world ocean." Notice how the continents (large land masses) divide the world ocean into five large oceans on the latest globes and maps.

- pick up and carry away
- do not dump
- guard against
- properly dispose of
- recycle
- walk or bike often

No Swimming Today!

The oceans cover more than 70% of the earth and contain 97% of its water. **Use a globe or map to fill in the crossword:**

- Which ocean is the largest and deepest?
- This ocean lies between North America and Europe.
- Some people say that this ocean is part of the Atlantic Ocean. It is the water north of Asia, Europe and North America.
- This ocean is east of Africa and south of Asia.
- The waters of this ocean surround Antarctica.

Fighting Water Pollution

If water at a beach or in a stream has high levels of bacteria or other pollution problems, it may be unsafe to swim in or eat its fish.

Match the numbered phrases to their second parts to see how people can fight water pollution:

- as much garbage and trash as we can
- to help cut back on pollution from cars that can cause acid rain
- all trash we produce while hiking, biking, picnicking or visiting the beach
- household or boating products into the water
- spills from ships and factories that hurt plants and animals in the water
- all medical waste
