Kids: color
stuff in!

Creatures of Our Seas!

Do you think a
"new," giant
creature
will be
found
during
your
lifetime?

If it is,
how do
you think it
will look and
live?

There are so many fascinating
creatures that live in our seas and oceans.
Scientists today are diving to the deepest parts
of the oceans to explore and photograph sea
life that no humans have ever seen before.

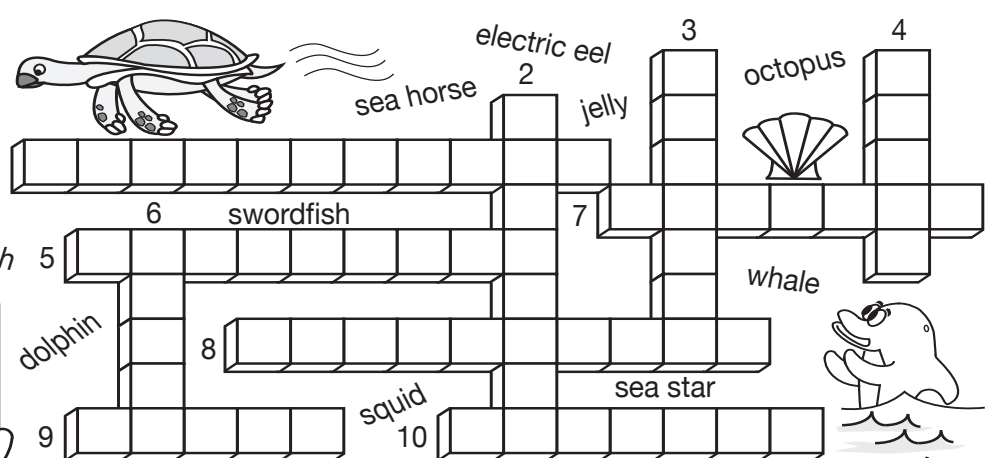

Almost
everything in the
sea is food for
something
else.

This
is a
giant...

In some parts of the world,
people consider me (a puffer
fish) a special and rare treat.
But, my poisonous parts and
spines keep
almost everything
else from
eating me.

puffer fish

Can you read the clues and fill in
the names of these 10 sea creatures?

Oops...I did it again!

This Sea Creature...

1. is really a fish that grows up to six feet long; it can be a shocking experience to meet it (2 words)
2. "gallops" through warm waters; when tired, it can use its tail to cling to seaweed (2 words)
3. has an arm, arm, arm, arm, arm, arm, arm, arm; can squirt black ink to trick an enemy
4. comes in many sizes; a giant one can have eyes up to 15 inches wide, the largest in the world; it has eight arms with suction cups and two tentacles for catching dinner
5. uses its "double-edged sword" to slash through a school of fish for, or to fight
6. is a mammal; it is easy to spot when it "blows off steam"
7. is loved by sailors for its friendliness and intelligence
8. swallows water to blow up into a large ball; its sharp spines discourage other fish from trying to eat it (2 words)
9. has no bones, looks like umbrella; may have tentacles with poison in them to kill fish or harm enemies
10. usually has five arms; sometimes, if one is lost, it can grow back (2 words)
