EDITOR'S NOTE: The information is presented in this year's **Back to School** edition is correct as of July 25, 2022. Dates and schedules may be altered as circumstances change. For the most up-to-date **Back to School** information, check our online edition at www.ClarendonLive.com.

How to help prepare kids for kindergarten

The first day of kindergarten is a milestone moment for children that their parents will remember forever.

Data from the U.S. Census Bureau indicates that around five million children attend an organized preschool or daycare facility in the United States, while Statistics Canada reports that roughly 52 percent of children in nonparental child care are in a daycare center, preschool or childcare center. Children who attend preschool or daycare may make a relatively seamless transition to kindergarten. However, it's still a good idea for parents to take steps to prepare youngsters for kindergarten in advance of the first day of school.

• Attend orientation or related events. Elementary schools typically are housed in much larger buildings than preschools or daycares, and that size can be intimidating for children. Attending kindergarten orientation or related events as a family can help children see their classrooms, meet their teacher and potentially their classmates.

 Meet other kids in the neighborhood. Some children attend preschools or daycares close to home, while others may go to facilities near a parent's office. Regardless of where kids go to daycare or preschool, they're likely to meet new youngsters in kindergarten. Introducing them to other kids in the neighborhood who will be going to kindergarten as well can calm children's nerves. Seeing a familiar face on the bus and/or in class can put youngsters at ease.

• Avoid lengthy goodbyes. Parents may get a little teary-eyed on their children's first day of kindergarten, but drawing out goodbyes as kids get on the bus or walk into school will ultimately make it harder on children. Limit your goodbye to a hug and kiss and some words of encouragement. Keep the emphasis on the positive and the fun that's to be had so kids arrive at school in a good frame of mind.

• Remind youngsters you'll be there to pick them up at the end of the day. Let children know that, just like daycare and preschool, mom or dad will be there to pick them up at school or the bus stop at the end of the day. This sense of the familiar can calm kids' nerves and reassure them that a smiling face will be there at end of the school day.

The first day of kindergarten is a big moment for young children. Parents can take steps to calm first-day jitters and ensure children have a memorable day.

registration information

CLARENDON Clarendon CISD will have online registration for returning students beginning Wednesday, August 3. New students may register in person on Tuesday, August 9, from 9:30 a.m. to 3:00 p.m. For more information, visit ClarendonISD.net. Classes begin August 15.

Clarendon Elementary "Meet the Teachers" - August 11 at 5:30 p.m.

Clarendon Junior High "Meet the Teachers" - August 22 at 5:30 p.m. Colt Parents will have a cookout and offer burger bag meals and have opportunities for parents to sign up for activities.

Clarendon High School "Meet the Teachers" - August 11 at 6:00 p.m.

HEDLEY Hedley CISD will have registration on

Tuesday, August 2, and Wednesday, August 3, from 8 a.m. to 4 p.m. **Hedley classes begin August 18.**

Improving reading comprehension

Strong reading comprehension skills are one of the foundations of a successful academic career. According to the Institute of Reading Development, students with strong reading comprehension skills get a big boost in all subjects, including math and science.

Though the benefits of reading comprehension are well documented, many students are struggling in this area of their academics. Officials with the National Center for Education Statistics note that, over the last decade, students have made no progress in reading performance. That likely comes as no surprise to seasoned educators, as data indicates students are reading less outside of school than they have in years past. Data from the National Assessment of Educational Progress indicates the percentage of public school students who said they read 30 minutes or more a day declined by 4 percent between 2017 and 2019, dipping below 50 percent overall in the latter year.

There's likely a multitude of reasons why students now read less than they used to. Parents concerned about their children's reading comprehension can try these strategies to bolster this highly valuable skill.

• Let kids read what they like. The tutoring professionals at Oxford Learning® report that 73 percent of students indicate they would read more if they found books they liked. Parents can address this issue by taking children to their local libraries and letting them choose which books to check out. The more practice kids get with reading, the more their comprehension skills develop.

• Read aloud to children. Various studies have found that reading aloud to children significantly benefits literacy development. One study from the National Association for the Education of Young Children found that listening to others read helps children develop key understanding and skills, including how stories are written. In addition, the Reading Rockets project, which aspires to bring reading research to life in the hopes of helping young children develop into strong, confident readers, notes that children can listen on a higher language level than they can read. That makes complex ideas more accessible.

• Ask questions when reading to children. When reading to children, parents can compound the benefits of this activity by asking youngsters questions about the book. Asking what, when, where, why, and how can encourage children to look for answers to these questions while they're being read to. As students advance and then read more on their own, parents can encourage them to ask these questions of themselves (if they're not already doing so on their own). Asking and answering these questions is a great way to strengthen reading comprehension skills.

Strong reading comprehension skills can help students reach their academic potential. Parents can employ various strategies to help children bolster those skills.

Wishing you a great first day and a great year!

Welcome Back, Students!

2,4,6,8, who do we appreciate? Our wonderful students, faculty and staff!

We wish all of our local students a safe, successful and enjoyable school year.

Texas Comptroller Glenn Hegar reminds shoppers they can save money on certain items priced under \$100 during the state's annual sales tax holiday. This year, the sales tax holiday is scheduled for Friday, Saturday, and Sunday, Aug. 5-7, 2022.

The law exempts most clothing, footwear, school supplies and backpacks priced under \$100 from sales tax, which could save shoppers about \$8 on every \$100 they spend during the weekend.

"For many families with children who are going back to their school campuses for the first time since the pandemic began, the sales tax holiday is the perfect opportunity to save money on school supplies and other tax-free items," Hegar said. "As a father with three school-aged children myself, I know how these expenses can add up."

Lists of apparel and school supplies that may be purchased tax free can be found on the Comptroller's website at www.TexasTaxHoliday.org.

CLOTHING & FOOTWEAR

Retailers will not be required to collect state and local sales or use tax on most footwear and clothing that are sold for less than \$100 during the holiday. The exemption applies to each eligible item that sells for less than \$100, regardless of how many items are sold on the same invoice to a customer. For example, if a customer purchases two shirts for \$80 each, then both items qualify for the exemption, even though the customer's total purchase price (\$160) exceeds \$99.99.

The exemption does not apply to the first \$99.99 of an otherwise eligible item that sells for more than \$99.99. For example, if a customer purchases a pair of pants that costs \$110, then sales tax is due on the entire \$110.

The exemption also does not apply to sales of special clothing or footwear that the manufacturer primarily designed for athletic activity or protective use and that is not normally worn except when used for the athletic activity or protective use for which the manufacturer designed the article. For example, golf cleats and football pads are primarily designed for athletic activity or protective use and are not normally worn except for those purposes; they do not qualify for the exemption. Tennis shoes, iogging suits and swimsuits, however, are commonly worn for purposes other than athletic activity and thus qualify for the exemption.

Additionally, tax is due on sales of accessories, including jewelry,

handbags, purses, briefcases, luggage, umbrellas, wallets, watches and similar items.

The sales tax holiday exemption does not extend to rental of clothing or footwear; nor does it apply to alteration or cleaning services performed on clothes and shoes. These items continue to be subject to state and local sales or use tax.

BACKPACKS

Backpacks under \$100 and used by elementary and secondary students are exempt. A backpack is a pack with straps one wears on the back. The exemption during the sales tax holiday includes backpacks with wheels, provided they can also be worn on the back like a traditional backpack, and messenger bags. The exemption does not include items that are reasonably defined as luggage, briefcases, athletic/ duffle/gym bags, computer bags, purses or framed backpacks. Ten or fewer backpacks can be purchased tax-free at one time without providing an exemption certificate to the seller.

SCHOOL SUPPLIES

Texas families also get a sales tax break on most school supplies priced at less than \$100 purchased for use by a student in an elementary or secondary school.

The following is a list of qualifying school supplies (if priced less than \$100):

- Binders
- Book bags
- Calculators
- Cellophane tape
- Blackboard chalk
- Compasses
- Composition books
- Crayons
- Erasers
- Folders; expandable,
- pocket, plastic, and manila
- Glue, paste and paste sticks
- Highlighters
- Index cards
- Index card boxes
- Legal pads
- Lunch boxes
- Markers (including dry erase markers)
- Notebooks
- Paper; loose leaf ruled notebook paper, copy paper, graph paper, tracing paper, manila paper, colored paper, poster board, and construction paper
- Pencil boxes and other school supply boxes
- · Pencil sharpeners
- Pencils
- Pens
- Protractors
- Rulers
- Scissors
- Writing tablets

Team participation, community volunteering, and other activities can lead to more well-rounded students when extracurricular opportunities are experienced in additon to classroom education.

Benefits of extracurricular activities

School offers much more than a topnotch education. Being an engaged student involves learning lessons in the classroom but also participating in the myriad activities that begin once the dismissal bell has rung.

Participation in extracurricular activities should be a consideration for every student because of the vast array of benefits such pursuits provide. Information published in the Brandon University Journal of Graduate Studies in Education indicates that participation in extracurricular activities positively correlates with students' development both academically and personally. Research shows being involved in afterschool clubs and sports promotes greater character development, improved academic success, good time-management techniques and leadership skills, and greater interest in community involvement.

Every school offers some type of extracurricular activity - from school bands to academic clubs to volunteer groups to sports. The National Center for Education Statistics says these activities offer students opportunities to learn many valuable lessons, including group responsibility and the value of competition.

Students who participate in extracurricular activities also can be exposed to a diverse array of people and cultures. Some activities also help students develop their mental and physical strength. The NCES notes that participation in extracurricular activities can foster a strong sense of connection between students and their schools, which can reduce the likelihood of school failures and dropout rates.

Extracurricular activities also are the gifts that keep on giving, particularly as they relate to future academic success. Crimson, an admissions support company specializing in increasing acceptance to highly regarded institutions, says extracurriculars are a critical part of a student's university application. Involvement in clubs and more provides a clearer picture of who a student is outside of the classroom and offers an opportunity to showcase various skills and interests. Furthermore, diversifying one's interests through extracurricular activities broadens a person's world view and improves self-esteem. These are benefits that can ultimately help students become well-rounded persons and successful professionals.

While people are quick to view extracurriculars for the academic advantages they provide, one often overlooked benefit is the social benefits of these pursuits. One of the best and easiest ways to make friends is through extracurricular activities. Fellow participants share the same interests and that can lay a solid foundation for lasting friendships.

Students who view extracurriculars as vital components of their school experiences can reap the rewards of being active members of their campus communities.

Tips for staying healthy at school

Children are in close contact with others at schools and daycare facilities, where germs can be easily transmitted. Children may not be as conscientious as adults in regard to the health risks associated with poor hygiene. These tips can keep students stay healthy and help prevent germs from being transported home, where they can affect other members of the family.

• Hand washing is essential to good hygiene. Children should wash their hands with soap and water after using the bathroom, before eating and after playing outdoors.

• Children can bring along their own tissues and use them when their noses become runny. Tissues should be promptly discarded after use.

• Parents should ensure that fingernails are clean, as under the fingernails can be a breeding ground for bacteria. Clipping fingernails and regular hand washing can remove a number of germs.

• Keep ill children home from school, especially if they have a fever. Kids should not return to school until they are fever- or symptom-free.

• Toys and community supplies should be washed or disinfected regularly to kill germs. Cleaning classroom furniture regularly also can help establish healthy educational environments.

CLARENDON NOTES: BRONCOS, LADY BRONCOS TO BEGIN PRACTICES AUGUST 1ST

A thletic Director Clint Conkin has announced that Monday, August 1, will be the start of two-a-day practices for high school football players.

Conkin says athletes need to arrive by 7:30 a.m. with the first practice to start at 8 a.m. that morning.

All football athletes are expected to be on time, clean shaven with a good short haircut. Also, athletes need to be at all practices and meetings.

Cross-country athletes in grades 9-12 need to report on Monday, August 2, at the Bronco Gym at 8:00 p.m. All girl athletes playing basketball are highly encouraged to participate in cross-country.

SEASON TICKETS ON SALE SOON; SENIOR PASSES ALSO AVAILABLE

Clarendon CISD will begin selling 2022 reserved seating/season football tickets to the public at 8:30 a.m. on Monday, August 8, 2022.

Reserved seating/season tickets can only be purchased at the Administration Building, 416 South Allen Street, during regular business hours Monday through Friday from 8:30 a.m. to noon and 1 p.m. to 4 p.m. The ticket allows admission into regular season home games and reserves your seat in the prime viewing location. For ticket pricing, call the office at 806-874-2062, Ext. 8.

Also, Bronco fans over the age of 65 can get a Senior Citizen Pass from the Administration Building. The pass will allow senior citizens into any school sponsored home athletic event. If you currently have a pass, you do not need a new one unless it becomes no longer legible.

LITTLE MISS CHEERLEADERS PROVIDES FUN OPPORTUNITY

Little Miss Cheer Camp will be on Saturday, August 20, from 10:00 a.m. to 3:00 p.m. at the Bronco Gym. Registration will start at 9:45 a.m. The cost is \$45 per camper. For families it will be \$35 if you have multiple cheerleaders.

Cheerleaders may pre-register August 11 at the elementary school during "Meet the Teacher" night at 5:30 p.m. For more information call Brittany Monds at 806-277-0715.

LOCAL ORGANIZATIONS PLAN TO DISTRIBUTE SCHOOL SUPPLIES

Two local groups have teamed up to ensure no kid goes without the tools they need to succeed this school year.

Christ's Kids Outreach Ministries, with the support of the Lila Kate & Kylie Monroe Memorial Fund of the First United Methodist Church, will offer free basic school supplies Tuesday, August 9, at the Christ's Kids Ministry Center 416 S. Kearney, from 5:00 to 7:00 p.m.

Donations to support this effort can be mailed to PO Box 45, Clarendon, TX 79226.

Those parents who cannot pick up supplies on August 9 can schedule an appointment and still pick up supplies by calling Terri Luna at 806-584-6918.

Cyber safety important for students of all ages

People rely on the internet every day. In recent months, reliance on digital technology was pushed even further as social distancing measures had the world going online for school and work and to maintain relationships with friends and family.

A 2018 report from Pew Research Center indicated that nearly 25 percent of young adults in America reported being online almost constantly. Common Sense Media says teens spend an average of nine hours a day online, compared to roughly six hours for those between the ages eight and 12 and 50 minutes for kids younger than eight.

Students must exercise caution when spending time online. Connectivity can be empowering, but it also puts students at risk from others and even their own, sometimes irresponsible behaviors. Staying safe online should remain a priority for students who must spend more time on the internet and using digital education tools. These are some tips for maintaining cyber safety.

• Exercise caution when sharing information like your name, address, phone number, and other personal data online. Check with a trusted parent or teacher before sharing private data.

• Report any online activity that makes you feel uncomfortable, scared or confused, whether it is directed at you or a classmate. • Think carefully before you post comments online. Data remains online indefinitely, and your words and actions today can greatly affect your future.

• Respect others online by refraining from demeaning or bullying comments.

• Do not try to get around firewalls and blocked websites set up by school administrators. These limitations are there for your protection.

• Stick to school-sanctioned assignments and internet browsing when using school-issued devices. Administrators may have the right to monitor student activity without students' knowledge and you can easily get yourself in trouble.

• It is easy to hide or fake one's identity on the internet, so never take someone you meet or speak with online at face value. Never meet up with someone you do not know or only met online.

• Talk to your parents or educators about extortion and ransomware that tries to trick you into providing payment in some shape or form to prevent a perpetrator from releasing private information about you, advises the Readiness and Emergency for Schools Technical Assistance Center.

Reading Newspapers Benefits Students

Classrooms have come a long way since the days when pioneering settlers would send their children to single-room schoolhouses. Modern classrooms might be technical marvels, but one less flashy learning tool remains as valuable as ever.

Newspapers might not be as glamorous as tablets or other gadgets, but they are still an invaluable resource to educators and students. The following are seven ways in which newspapers in the classroom can benefit students.

1. Newspapers build vocabulary. Numerous studies have found that reading can improve youngsters' vocabulary. Each day, newspapers are filled with fresh stories that can introduce kids to new words, helping them to strengthen their vocabularies and make them more effective communicators.

2. Newspapers improve reading skills. Like the old adage says, "Practice makes perfect." Reading newspapers each day can help kids develop their reading and comprehension skills.

3. Newspapers promote critical thinking. Newspaper reporters are trained to objectively report the news, sharing facts without allowing their own opinions to influence their stories. Educators can choose stories from the newspaper to serve as catalysts for discussions that focus not just on the facts listed in the story, but what might be behind them. Such discussions can help youngsters develop their critical thinking skills.

4. Newspapers bring ideas and current events to life. Many children are aware of major world events, even if they don't know or understand the details. Newspaper articles about world events can be used as avenues to discussions about what's going on in the world.

5. Newspapers build global awareness. Customized newsfeeds funneled through social media outlets can make it hard for young people to recognize and understand the world beyond their own communities and interests. Each days, newspapers include local, national and

Newspapers remain invaluable resources that can benefit students in myriad ways.

international stories that can illustrate to kids that there's a world beyond their own.

6. Newspapers promote social consciousness. Without newspapers, young people may never be exposed to the social issues facing their own communities or those issues that are affecting people across the country and the world. Newspapers provide unbiased exposure to such issues, potentially leading youngsters to further explore topics that are shaping their world and even encouraging them to form their own opinions.

7. Newspapers make learning fun. According to a 2017 report from Common Sense Media, kids younger than eight spend an average of two hours and 19 minutes per day looking at screens. Newspapers provide a welcome break from tablets, smartphones and computers, and kids may have fun flipping pages and getting a little ink on their hands.

THE CLARENDON ENTERPRISE NEWSPAPERS IN EDUCATION PROGRAM

places more than 200 newspapers in the hands of elementary and junior high students each week during the school year, exposing them to current events and community activities and educational games. We gratefully acknowledge the support of our NIE sponsor and invite other businesses to help expand our program.
