We like to check out the fire trucks...
...and ask the fire fighters questions.
Kids: color stuff in!

Fire Safety is Smart!

Have you ever visited the firehouse or had a fire fighter come to your school to speak? It's just plain smart to learn how to help prevent fires. When fire fighters talk about fire safety we tell students:

- Get out of the house quickly if there is a fire.
- Call the fire department from a neighbor's house.
- If your clothes catch on fire remember to... STOP, DROP AND ROLL!

Family Fire Safety Checklist

☐ Cook in the kitchen only when an adult is helping you.

☐ Don't touch matches, lighters or candles. They are only for adults to use.

☐ Do you have smoke detectors on every level of your home? Test them monthly. Change the batteries at least once a year.

☐ Do you know two or more ways out of the house?

☐ Never use elevators if there is a fire (stairs are much safer).

☐ Smoke rises. If there is a fire, stay low: crawl under the smoke.

☐ Have you picked a place to meet the rest of your family once you are all out of the house?

☐ Once you are out of the house, stay out of the house.

2 Ways Out

Families check out this list!

Read each of the 15 words and phrases in the list below. Then, find a word or phrase above that means almost the same thing and fill in the puzzle.

New inventions help fire fighters do their difficult work. One invention is a scanner that can detect faint heartbeats, which can help to find people trapped under rubble. Another is a mask with built-in "thermal imaging" that lets fire fighters "see" people and flames through smoke.
