...and history of Native Americans.

Kids: color stuff in!

America's First People!

Native Americans were the first people to live in North America. They are believed to be descendants of people from Asia who crossed into North America on a land bridge (the Bering Strait) that connected the two continents during the Ice Age, but is now gone.

The Native Americans settled into different regions and each tribe adapted to its own environment. Tribes formed larger groups, learned how to talk with one another, began hunting, farming and trading.

Then, about 500 years ago, European explorers arrived and began to form settlements. Many of the Native Americans got along with the newly arrived settlers and they lived in peace. But, there were also conflicts between some of the North American tribes and settlers (more so in areas of the U.S.). During the 1800s, many Native Americans were assigned to areas called reservations or reserves. Today, less than a third of the Native American population still lives in these areas.

Read the clues to learn about some Native American history and to fill in the puzzle.
