## PUZZLE SOLUTION

Technology is Cool!

Check out these new VR headsets. You can see the eyelenses inside. They let us see a made-up world in 3D. They make playing games even more fun! I'll be keeping an eye on this invention.

I'm crazy about technology. I admire the way people are always thinking up new ways to solve problems or to improve designs of things. It must be a cool job to build mechanical devices or electronic equipment that everyone can use. What would you like to see invented?

Read the clues to fill in the crossword:

- programs allow these to store and process data
- smaller, mobile computers, usually with large touch screens
- small parts of a computer that process information
- to copy and transfer information such as an application or program from a source like the internet onto your computer
- programs that tell your computer the steps to do something
- computers read and understand special codes to track information
- machines that can do tasks like tighten screws or put caps on bottles
- 3D \_\_\_\_\_ read designs and make them into real objects you can use
- virtual reality or VR \_\_\_\_\_ show you what it's like to look into another world and perhaps play a game while wearing these special goggles
- smart \_\_\_\_\_ - a technology updated to include a tablet computer, a camera and more - small enough that you can carry them

Have you ever seen a 3D printer? You can draw cool 3D designs, then use a 3D printer to make the design into a real item that you can use. I can hardly believe I made this toy.
