Exploring National Parks

Read the clues to fill in the puzzle:

I love visiting National Parks. The U.S. Parks system preserves over 400 sites across the country. From Sequoia National Park (in California), with its giant sequoia trees that are so large that you can drive a car through them, to Assateague Island on the east coast, where you can see horses running wild and free on the beaches.

- largest subtropical wilderness in U.S.; in Florida; more insects than any other kind of animals; 'clouds' of birds migrating may block out the sun here
- known for waterfalls; California; people flocked to this area during gold rush
- home to Old Faithful and the largest collection of geysers and hot springs in the world (WY, MT, ID); grizzly bears, elk, wolves, herds of bison, bighorn sheep, bears
- Alaskan park; home to America's highest peak at 20,320 feet; still home to Alaskan Natives who make use of all the lands
- in Utah; over 2,000 natural stone arches in this park; balancing rocks show off red rock against the beautiful blue sky
- Cadillac Mountain in Maine; the tallest on the eastern coast; Oct. 7th to March 6th it is the first spot in the U.S. where people can see the sunrise
- in California/Nevada; recorded heat over 120 degrees F for 43 days straight; Badwater Basin is the lowest place in U.S. — 282 feet below sea level
- this park in Hawaii is called Hawai'i _____ and is home to 3 active ones
- many rock formations in _____ park (Virginia) are over a billion years old; there are many relics from the Native Americans who once called this home
- _____ Mountain park in Colorado; 300 miles of hiking trails; fantastic views
- the Grand _____ (Arizona) shows the history of the earth through its many layers; 277 miles long, up to 18 miles wide and over a mile deep
- Great _____ Mountains (NC, TN) is America's most visited National park; lots of wildlife; has largest blocks of old growth forest in North America
