...and how to reuse and recycle our things.

Kids: color stuff in!

Every year we put our heads together to share new ideas and ways we can keep our environment clean on a daily basis.

The 3 R's studied in school are sometimes called "reading, 'riting and 'rithmetic." They are studied to help us prepare for our future careers. Today, students also learn about the **Earth's 3 R's: reduce, reuse and recycle**, which if practiced will help us keep our future environment safe and clean.

Families can do a lot to lessen the amount of trash that's created. When you fill in this puzzle, one of the "3Rs" of the **Earth's 3 R's** will appear below the arrow.

Families can . . . fluorescent

- run the washing machine and the _____ for full loads only.
- put _____, grass clippings, vegetable and fruit scraps into a pile, cover with dirt and start a compost pile.
- think "green" for a baby's _____ needs — use ones that are 'biodegradable', meaning they 'break down' over time in the trash
- use some compact _____ or LED lights to save energy; money.
- buy items with little or no _____.
- have _____ repaired instead of buying new ones.

It's a great day to get together with others to pick up litter or to plant new trees and flowers.

Families Can **Reuse** by . . .

- giving clothes and toys in good shape to younger children.
- bringing cloth or net bags to carry groceries home.
- using both sides of a piece of paper.
- fixing up your bike and sporting equipment to use again.
- growing plants from seeds in milk cartons.

(Find and circle the underlined words in the puzzle above.)
