eligible school children, teachers, and other educational personnel at registered private non-profit schools that desire to participate. The term "equitable services" refers to the process of providing students, teachers, staff, and families at eligible PNPs fair access to federally funded education programs and services as appropriate. Educational services or other benefits, including materials and equipment, provided under this section, shall be secular, neutral, and non-ideological. Among other requirements, the process depends on a "timely and meaningful consultation" between ISD officials and those of eligible PNPs. If you operate a private school and would like to determine if your school qualifies for equitable services and/or to schedule a consultation for the 2025-2026 school year, please contact Jennifer Bellar, Director of Special Programs, [bellar.jen@clarendonisd.net](mailto:bellar.jen@clarendonisd.net) by June 9, 2025.

## Ready for Robots?

I'm bored, and tired of doing the same chores over and over. I want a...**Robot**...so I can tell it what to do!

The kind of robot I *really* want is only found in science fiction stories and movies. Most robots that exist today are used in industry to make cars or other items. Some are used to paint or pack items. Robots in movies often look like humans, while real-life factory robots usually have only one big arm to do the work they are built to do. Robots have computers for "brains." People can program them with a set of directions to "teach" them a job. If something goes wrong, robots can't teach themselves how to fix it – yet!

## Can You Figure it Out?

Check out my robot! Can you fill in the number where he has:

1. cameras for eyes
2. feet for moving from place to place
3. computer "brain" area; panel for repairs
4. bendable, flexible arms to reach and stretch
5. microphones for ears to pick up sound
6. a loudspeaker for "talking"

Have you heard about NASA's Mars Exploration Program? Robots, like this one, are sent to Mars. They help scientists study the planet by sending photos and data from Mars to Earth.

Don't ask me to do your homework!

Are **you** ready for robots? A lot of the robots we see on TV or in movies are played by human actors. Remember C-3PO and R2-D2 from the movie **Star Wars**? Many are computer generated robots. But, more and more "real" robots – that can help humans directly – are being built and put to use.

Fill in this puzzle to show how much you know about robots:

1. working, moving or acting by itself
2. machine that automatically does a job
3. set of directions put into the computer to tell the robot what to do
4. business, work that produces things we use, such as cars and bicycles
5. field of work designing, building robots
6. the "brain" of the robot
7. able to move from place to place
8. fun stories that show how a real or imagined scientific thing such as a robot might change our way of life
